

# WEBSITE CREATION

SPREADING THE WORD  
ABOUT YOUR EVENT

To optimise communication about the event you have chosen to hold at the Palais du Grand Large and get the word out to as many people as possible, we offer the following services:

## Page design service:

We provide you with the opportunity to include one or more pages about your event in our own website. Your page(s) could include:

- The description of the event you are organising
- The programme and details on the organisation committee
- Public-domain visuals from our photo library
- Any additional information you think should be available to participants and sponsors...

## Website creation service:

We handle the creation of a website that describes your activity, gives the history and geographical location of your company, and presents your event...

The following are included in this service:

- Page design
- Website hosting (for one year)
- Domain name registration (for one year)
- E-mail address creation (for one year)

*Please contact us to outline your needs and objectives so that we may draw up an initial price estimate for our services.*
